Bad Herrenalb

In the rhythm of the nature

Holiday Apartment Eileen

Well-being from air and water

Bad Herrenalb is a state-approved healthy climate cure resort:

Being surrounded by forest, pure oxygen rich and dust free air are just as important factors as its temperature, humidity and sun ray. The Bad Herrenalb climate promotes the joy in each form of activities that are good for the respiratory

organs. Apart from the healthy air, water is an important nature element for Bad Herrenalb. A "Quellenerlebnispfad" – source path – describes visibly why in Bad Herrenalb so many sources and brooks have valuable effects on health welfare. From approximately 600 meters of depth comes the special well-being healing water rich at sodium, calcium, chloride and sulphates. This creates a marvellous feeling and emphasises your wellness.

To experience the forest is a gift of nature

Approximately 65 million years ago the upper Rhine sunk down and at the same time rose the Black Forest and Vorgesien. Consequently, brooks and rivers were formed and valleys and canyons were created which offers us today the characteristic of the Black Forest. Water, wind and frost formed romantic rock formations. In the intersection of 7 valleys Bad Herrenalb offers ideal conditions for large and small discovery routes.

Our recommendation

After visiting the "Barfuß-Parcours" – barefoot Parcours –

you could picnic on the wide Swiss meadow and play ball games or just explore the Alb where it ripples along. Very close to it, there is a playground and a mini golf place. Your holiday Apartment Eileen **** is situated in this beautiful area. Bad Herrenalb is about 300m above sea level. The apartment faces a beautiful

panorama view of the hotel park, the town and the mountains. Within the building our guests have free use of the indoor swimming pool. The swimming pool and sauna are easy to get to by lift from Apartment Eileen **** No. 58.

A visit to the monastery garden is a must and highly recommended

During a visit to the monastery garden, an inspection of the monastery plant and the old romantic church is recommended. Here, you also have the possibility to use one of the barefoot parcours and later to rest on one of the park benches. Every Friday there is an open market where you could buy all kinds of products from the agricultural growers.

Leisure for all generations

The "Waldfreibad" swimming pool that is situated in Albtal is for all generations. A bath pleasure in natural spring water, surrounded by green nature. The swimming pool is 25m long with extra baby pool, high-diving platforms, and a large lawn area to rest and relax.

Games and Sport

The area is ideal for snooping and learning the most important golf rules. In the green paradise in "Bernbacher Hochtal" – Bernbacher high valley - you could participate in training, tournaments or daily games. You have the choice of a 9-hole course.

Total Enjoyment

If your daily routine allows you no free time, this will awaken within you the longing for calm sounds, relaxing baths, soft smells, well-being and enjoyment. You can expect all these factors.

Prießnitz-Spa

Black Forest, the source of health. Enjoy the knowledge of Vincent Prießnitz, the contemporary and teacher of Sebastian Kneipp. Experience the ambient of our Spa's with the unique 700 square meter large Wellness world

Water, light, air and earth

The characteristic Black Forest curative power supported by modern medical research are some of our offers for your health.

Full moon and classical nights

Feel the charm of colours, light and live music at full moon and classical period nights or candlelight evenings: Dreaming and floating in the thermal baths and Wellness till midnight

Your welfare and well-being

For your treatment applications service is offered here from 9am – 10p.m daily. The Therapeutic Bath Federation granted four Wellness Stars to the "Siebentäler Therme" and appreciated and praised the Bad Herrenalb concept to combine experienced applications with medically supported treatments. The Black Forest wellness products also contribute to the well being feeling.

Adventure in snow covered forest

Snow-shoe-move has a long tradition. Already Indians and trappers used the technology and in this country snow shoes were essential for forest wardens, hunters and forest workers. Today snow-shoes belong to pure winter pleasure. With one meter high snow the good and special construction of the snow-

shoes prevents one from sinking. One walks safely and softly as walking on well paved path. Use these offers and relax in snow-shoes hiking in the beautiful Bad Herrenalb forest. The experienced guides accompany small and large groups with snow-shoes. Depending on weather and snow situations the groups are guided to the upper parts of Bad Herrenalb and Dobel. You get to know the environment of Bad Herrenalb in a different glance by moonlight and star glittering evenings

In addition, snow-shoes hiking is very healthy because it strengthens the heart, the circulation and activates the burning of the calories. The entire body is in movement; the hip and thigh muscles are particularly trained whereby the joints stay protected
